

# Midway Animal Hospital Anesthesia-Surgery Consent

Pet's Name: \_\_\_\_\_ Today's procedure/Surgery: \_\_\_\_\_  
When did your pet last eat/drink? \_\_\_\_\_

Your pet is scheduled to have a surgery or dental. These procedures require a general anesthetic. Although anesthetic complications are rare they can pose a life-threatening risk to your pet.

Like you, our greatest concern is the well being of your pet. Before putting your pet under anesthesia we will perform a physical examination. However, many internal conditions, including disorders of the liver, kidneys, or blood, are not detected unless blood testing is performed.

Although there is no guarantee against potential complication, we highly recommend blood screening for pets under 7 years of age, and we **require** this testing for **pets 7 years of age and older** before performing any procedure which requires anesthesia. The total cost of these important tests is: **Less than 7 years - \$69.25** 7 years and older - **\$85.75**

**Please indicate if you decline the Blood Screen below for pets under 7 years of age:**

- NO**, I do not want my pet to have a pre-anesthesia blood screen. (Pets 7 years and older the Blood Screen is required)

---

As an extra safety measure, we also suggest your pet have an intravenous (IV) catheter placed before surgery. Having a catheter in place provides us with an important means of administering life saving fluids and medications if an emergency situation should arise. Please note we will be shaving off a small section of hair on your pet's leg for catheter placement.

The total cost of having an IV catheter placed is **feline: \$34.75** and **canine: \$40.25**

**Please indicate your choice below:**

- YES**, I want my pet to have an IV catheter placed before surgery.  
 **NO**, I do not want my pet to have an IV catheter placed before surgery.

---

We will also administer **post-operative pain medication** if needed. The cost for this varies with the type medication used and ranges from **\$36.75** to **\$42.00**.

---

Please indicate any of the following services you want performed while your pet is anesthetized:

- Dental Cleaning: \$62.50 to \$75.50**                       **Nail Trim: \$18.75**  
 **Microchip Implant: \$45.00**                               **Hip X-rays (Hip Dysplasia/Arthritis): \$117.00**  
 **Ear Clean/Flush: \$23.75 / \$32.25** (Varies with presence of infection)

Please provide a phone number where you can be reached today should we need to call you. We perform most of our surgeries in the late morning or early afternoon. If there are no concerns with pre-anesthetic blood screening, we will proceed as scheduled and call you as soon as your pet is recovering. If you have not heard from us by 2:00 PM please call us for an update and estimated time your pet will be ready to go home.

Please indicate which number you would like us to call first:     **Home**     **Work**     **Cell**  
**HOME #** \_\_\_\_\_ **WORK #** \_\_\_\_\_ **CELL#** \_\_\_\_\_  
**Signed:** \_\_\_\_\_ **Date:** \_\_\_\_\_
